Documents necessary to the course *Internship II - 24 weeks*

The document **The Scope of Pharmacy Practice** includes guidelines for pharmacy activities that should be performed during pharmacy practice.

Before starting pharmacy practice

Before starting practice in a pharmacy, **The Paper of Acceptation** is necessary to fill in

- an agreement that the student of the Faculty of Pharmacy of Masaryk University will perform (part of) his/her pharmacy practice in the pharmacy in the agreed term

Filled in The Papers of Acceptation (requested are only original Papers with stamps and signatures of pharmacy advisors) should be delivered before starting a pharmacy practice to:

- course guarantor: PharmDr. Bc. Dana Mazankova, Ph.D., email: mazankovad@pharm.muni.cz

In the case of a pharmacy change, the new The Paper of Acceptation must be filled in and delivered.

Before starting a practice in a Czech pharmacy, filling in and delivering The Paper of Acceptation is also necessary.

After ending pharmacy practice

After finishing practice, a pharmacy advisor makes a record to **Confirmation of completion of pharmacy practice**

- a summary of the student's approach to working in a pharmacy

Insurance for damages during pharmacy practice

Masaryk University does NOT have insurance against damage caused by a student to a third party or if a third party (pharmacy) causes damage to a student. Responsibility for pharmacy practice is governed by the Labour Code (Section 391). The Labour Code states that liability for damage is the relationship between the student and the provider of practice.

For this reason, I give you to consider and recommend that you ensure for the duration of the pharmacy practice **commercial insurance of compensation for damage caused in connection with the practice in a pharmacy** (liability for damages and injuries caused to a third party, damage or injury caused to the student).
